Making ONLINE ordering EASY

For rotary shaft seals, the suffix “-bx” or “-EX” at the end of a part number indicates that the shaft seal is individually boxed. The same part number without “-bx” indicates bulk, not boxed. Costs are only available for bulk parts at this time.

See the Gasket Reference Sheet for details on Dichtomatik’s materials.
Requesting an e-catalog account

- If you don’t have a user ID and password, simply request an account!
- The form will go through a quick review prior to being granted access.
Logging in

- The site remembers your user name if the “remember my login” box is checked.
- For security reasons, it does not remember your password.
Product Search – Oil Seals

- Search by any combination of shaft, bore, width, lip style, case style, spring, material, and / or family

- Most popular materials are:
