

September 26, 2019

Subject:

EU regulation RoHS, Directive (EU) 2015/863 of the European Union which took effect 4 June 2015, requires that the following ten potentially hazardous substances found in electrical and electronic equipment, be declared to the buyer upon request of the seller.

- (1) Lead and its compounds (tolerance limit : 0.1wt% (1000ppm))
- (2) Mercury and its compounds (tolerance limit : 0.1wt% (1000ppm))
- (3) Cadmium and its compounds (tolerance limit : 0.01wt% (100ppm))
- (4) Hexavalent chromium and its compounds (tolerance limit : 0.1wt% (1000ppm))
- (5) Polybrominated biphenyls (PBB) (tolerance limit : 0.1wt% (1000ppm))
- (6) Polybrominated diphenyl ethers (PBDE) (tolerance limit : 0.1wt% (1000ppm))
- (7) Bis(2-ethylhexyl) phthalate (DEHP) (tolerance limit : 0.1wt% (1000ppm))
- (8) Butyl benzyl phthalate (BBP) (tolerance limit : 0.1wt% (1000ppm))
- (9) Dibutyl phthalate (DBP) (tolerance limit : 0.1wt% (1000ppm))
- (10) Diisobutyl phthalate (DIBP) (tolerance limit : 0.1wt% (1000ppm))

Tolerance or trace limits are limits based on law, regulations in the world and EU directives including RoHS (2002/95/EC).

Dear Valued Customer:

Dichtomatik Americas has reviewed our current operations.

In Compliance with RoHS Directive (EU) 2015/863 we declare that none of the parts listed in table 1 contain, come into contact with, or utilize any of the ten substances at, or above threshold levels, during manufacturing.

Jennifer Hansen
